- Foreign
Languages

Miscellaneous

Music School #12,
Kazan, Russia —
Flute, 2000 - 2006

Volunteer

Salvation Army,
Waltham, MA
2010 - 2013

Profile

I am a full stack web developer, passionate about programming and learning new languages. Prior to coding, I worked as an electrician for a local service company. The part of the job I enjoyed the most was the installation of “Smart Home” products and home automation systems.

With my interest in sophisticated gadgets and curiosity for programming, I have decided to make a move towards Web Development to be closer to what I love.

Experience

Web Developer Immersive, General Assembly, Boston, MA — 2018

Completed a 12 week 500+ hour course. Developed, tested, and deployed one front end and three full stack web applications.

Space Blast | Javascript, HTML5 Canvas, Ruby on Rails

An old-school arcade-style game, created using HTML5 Canvas and JavaScript (JS) on the front end and Ruby on Rails on the back end. Game logic is written in JS, which allows a user to control the spaceship with their keyboard.

TPad | Handlebars, Bootstrap, Ruby on Rails

I have created this app using Ruby on Rails for back-end and used handlebars to display information. It uses Ajax requests to update/delete/create and show all data. It was a great experience learning how to work with RoR and how its structured.

Bucket List | Javascript, Express.js, MongoDB, Mongoose

Two other developers and I created the app using Express.js for the back end and JavaScript and Handlebars.js for the front end. This was a great experience using GitHub to collaborate on a team project.

Other Experience

Lead Tech/Project Manager, FB Electrical Services, Needham, MA 2012 - 2018

Over 6 years experience as an electrician whose everyday tasks were managing team for long term projects with full communications with clients and being one of the top technician with universal skills.

Education

General Assembly, Boston, MA — Web Development Immersive, 2018

Kazan State University, Kazan, Russia — Physics Department, 2010
